## COURSE NEWS

The tree removal and stump grinding program will continue with funds earmarked specifically for this task.

Paul and his crew struggled last fall to remove the leaves from the course. Purchase of a dump trailer to assist with this task was approved by the board at his request. This item should also prove to be beneficial to the staff while course improvements are ongoing.

As time permits, you will see Paul's crew start tee box expansion on select forward tees. With golfers stepping up to forward tees, many of the boxes are taking a beating. This will ultimately preserve the integrity of our tees.

## CLUBHOUSE NEWS

Sealing and restriping of the parking lot, as well as the blacktop around the clubhouse is planned for early spring. This has not been done for quite some time and will ensure preserving our significant investment in this area.

An Automated External Defibrillator has been ordered.

New fixtures for the Proshop will be installed making it both more attractive and easier to see merchandise.

The Gaylord Country Club letters on the front of the clubhouse will be replaced with updated ones reflecting our new name and logo. The front of the clubhouse will be repainted prior to the reinstallation.

Over the winter the chairs in the grill room has had cushions replaced and were also reupholstered. A HUGE THANK YOU TO PAULA NICHOLAS WHO FACILITATED THIS TASK!
